RE: Mississippi Valley Blood Center

Dear Chad:

In your e-mail of February 10, 2010, you asked if I could draft a letter regarding the financial condition of your company to Mississippi Valley Blood Center. Because of the Privacy Act, I cannot disclose any financial information in number form from your business or personal Balance Sheet, Profit & Loss Statements or Tax Returns.

What I can say is that your company has been a very good customer of Blackhawk Bank & Trust f/n/a Great River Bank & Trust since 1998. Your company has always provided our bank financial information on a timely basis. Your company has maintained a steady growth pattern and you have a very good track record of earnings. We attribute the success of your company to management. When our bank does a risk rating on a commercial account, the three major components are: Management, Financial Condition and Ability to Pay. Your company ranks very high on all three components. You and your parents along with your staff should be very proud of Professional Building Services.

Please provide a copy of this letter to Mississippi Valley Blood Center and if they or any other company would want to talk to me direct, please have them call me at 563-289-4321.

Sincerely,

Kenny

Kenneth L. Oetzmann
